

Let's Share – Anastasija

Verse 1

I see unhappy people everywhere
For them the reasons are never the same
All of them have burdens to bear
Life's complicated but there's no one to blame

The world is full of poverty and pain
If we close our eyes it will never change itself
But every day we can take a little step
To change this world and to help somebody else

Chorus

Let's share the light
Let's share the goodness
Let's share the love
Let's share the kindness
Let's make this world a little bit better
Let's share, from now on, all the good things we can

Post Chorus

Hey ey L, E, T, S, S, H, A, R, E (2x)

Verse 2

People shouldn't be so cold
You never know when problems will knock on your door
You'll be lucky if you have someone to help
But don't wait for trouble; today you can do more

Chorus

Let's share the light

Let's share the goodness

Let's share the love

Let's share the kindness

Let's make this world a little bit better

Let's share, from now on, all the good things we can

Let's change the world together

Let's help those in need

Let's change the world together

Let's help those in need
