

Anastasija - Life's Dance

Verse 1

When I see the light
In the darkest night
In the deepest sky
In the bluest eye

I know there's something more
For which I will fight
For which I will live
For which I will strive

Pre-Chorus

I know that life is hard
Sometimes it is too much
Just leave emotions in the yard
And let the sun shine

Chorus

And I see the day and the night change
It never stops and never ends
The universe knows how to arrange
Life and Death, Life and Death
So while you're alive, dance life's dance
So while you're alive, dance life's dance

Verse 2

It's always hard to choose
The only right move
The only right play
The only right way

But there's some hope left
To get your life back
To make your life right
To make your life bright

Pre-Chorus

I know that life is hard
Sometimes it is too much
Just leave emotions in the yard
And let the sun shine

Chorus

And I see the day and the night change
It never stops and never ends
The universe knows how to arrange
Life and Death, Life and Death
So while you're alive, dance life's dance
So while you're alive, dance life's dance

Bridge

Determination is the key
Don't throw away your chance
You don't ever need to flee
Lose yourself to life's dance

Pre-Chorus

I know that life is hard
Sometimes it is too much
Just leave emotions in the yard
And let the sun shine

Chorus

And I see the day and the night change
It never stops and never ends
The universe knows how to arrange
Life and Death, Life and Death
So while you're alive, dance life's dance
So while you're alive, dance life's dance
