

Anastasija - Nobody Knows

Verse 1

Look there; the light emerges from above

It will be our guide

Look up; the rainbow's shining through the clouds

Now everything is dyed

We walked through challenging times

But we survived

It was a very long and hard fight

But we are still alive

Chorus

Nobody knows, nobody knows

Where this path will lead the people of earth

Nobody knows, nobody knows

If they'll demonstrate their worth

Nobody knows, nobody knows

If the good deeds they've done will show

Nobody knows, nobody knows

If their work has brought them close

Verse 2

Look there; the moon is so bright tonight

We can reach it if we try

The old clothes have become too tight

We have to change to celebrate a new life

Chorus

Nobody knows, nobody knows

Where this path will lead the people of earth

Nobody knows, nobody knows

If they'll demonstrate their worth

Nobody knows, nobody knows

If the good deeds they've done will show

Nobody knows, nobody knows

If their work has brought them close

Bridge

The puzzle we call life exists for a reason

Completing it proves that you are strong

Don't sink; go straight through the rainy season

Don't break; just keep on singing your own song

Chorus

Nobody knows, nobody knows

Where this path will lead the people of earth

Nobody knows, nobody knows

If they'll demonstrate their worth

Nobody knows, nobody knows

If the good deeds they've done will show

Nobody knows, nobody knows

If their work has brought them close
