

BIG BLACK HOLE – ANASTASIJA

VERSE 1:

Beats slowly, beats fast
The heart that is in my chest
But the truth is that there is no heart
Instead I have a big black hole left

PRE-CHORUS:

The loneliness eats my body and mind
I can only hope I'd stay longer alive
But I get too tired of this prolonged fight
I don't know whether to give up or try to survive

CHORUS:

No matter where I go
No matter what I do
I feel that emptiness inside
And nothing fills that big black hole
I'm in pain, I'm in pain
Can't you feel it in your soul?
But despite that I'll never lose faith
I'll never lose hope

VERSE 2:

The cold and the heat
These are the only things I feel
Without my heart I've no emotions
It's like I'm fully made from steel

PRE-CHORUS:

The loneliness eats my body and mind
I can only hope I'd stay longer alive
But I get too tired of this prolonged fight
I don't know whether to give up or try to survive

CHORUS:

No matter where I go
No matter what I do
I feel that emptiness inside
And nothing fills that big black hole
I'm in pain, I'm in pain
Can't you feel it in your soul?
But despite that I'll never lose faith
I'll never lose hope

BRIDGE:

The end, the end
This is what my soul screams
The suffering and pain
At least for once should be healed
I wanna feel the light; I wanna touch my dream
But it's so hard to take off my shield
It's so hard to take off my shield
To take off my shield
To take off my shield
Off my shield...

CHORUS:

No matter where I go
No matter what I do
I feel that emptiness inside
And nothing fills that big black hole
I'm in pain, I'm in pain
Can't you feel it in your soul?
But despite that I'll never lose faith
I'll never lose hope

Beats slowly, beats fast
The heart that is in my chest
