

SOUL MATE – ANASTASIJA

VERSE 1:

Soul mate
Does he exist?
Or is he just an illusion
Created to deceive
Every lonely soul
Wants that gift
Wants a true friendship
And a strong belief

PRE-CHORUS:

Somewhere far
Or somewhere close
I believe there is
A beautiful soul (soul, soul, soul)
When it's dark
And when it's cold outside
I imagine this soul is all around (round, round, round)

CHORUS:

I look into the deep, dark night sky
With millions of shining stars
In a moment like that I think I could fly
And take my soul mate to Mars

VERSE 2:

I'll be patient
I'll be strong
Somehow one day
I'll reach my goals
Everybody join me
In this song
Let's help each other
To find those souls

PRE-CHORUS:

Somewhere far
Or somewhere close
I believe there is
A beautiful soul (soul, soul, soul)
When it's dark
And when it's cold outside
I imagine this soul is all around (round, round, round)

CHORUS:

I look into the deep, dark night sky
With millions of shining stars
In a moment like that I think I could fly
And take my soul mate to Mars

BRIDGE:

Never give up
On anything you do
There's always someone
Who cares about you
If you didn't meet him yet
You surely will
Just take it easy
But don't stay still

PRE-CHORUS:

Somewhere far
Or somewhere close
I believe there is
A beautiful soul (soul, soul, soul)
When it's dark
And when it's cold outside
I imagine this soul is all around (round, round, round)

CHORUS:

I look into the deep, dark night sky
With millions of shining stars
In a moment like that I think I could fly
And take my soul mate to Mars
