

# **WE ALL ARE DIFFERENT - ANASTASIJA**

## **VERSE 1:**

Plus and minus attract each other  
The world is based on math and art  
Don't be depressed, be different rather  
Do everything from your heart!

It doesn't matter what you look like  
You can be who you wanna be  
Don't be afraid of any strike  
Remember that you hold the key

## **CHORUS :**

We all are different, we all are different  
But that doesn't make us worse  
We all are different, we all are different  
And that's the beauty of the world

## **POST-CHORUS:**

(Dare, dare, dare, dare) Just be yourself  
(Dare, dare, dare, dare) Just be who you are  
(Dare, dare, dare, dare) Just be yourself  
(Dare, dare, dare, dare) Just be yourself

## **VERSE 2:**

Past will never meet Future  
Mars and Venus may collide  
Can you hear the voice of Nature?  
Spread her word the World wide!

## **CHORUS:**

We all are different, we all are different  
But that doesn't make us worse

We all are different, we all are different  
And that's the beauty of the world

**POST-CHORUS:**

(Dare, dare, dare, dare) Just be yourself  
(Dare, dare, dare, dare) Just be who you are  
(Dare, dare, dare, dare) Just be yourself  
(Dare, dare, dare, dare) Just be yourself

**BRIDGE:**

Black and white, east and west, day and night, left and right  
Those are opposites, those are opposites  
But without each other they cannot exist  
Just dare to be different; just dare to be different

**CHORUS:**

We all are different, we all are different  
But that doesn't make us worse  
We all are different, we all are different  
And that's the beauty of the world

**Post-Chorus**

(Dare, dare, dare, dare) Just be yourself  
(Dare, dare, dare, dare) Just be who you are  
(Dare, dare, dare, dare) Just be yourself  
(Dare, dare, dare, dare) Just be yourself
