

## **Anastasija - Darkest Before The Dawn**

### **Verse 1:**

You know that I haven't any choice  
You know you have to let me go  
I will run through the fields until I hear the voice  
I will walk this path even through the snow

### **Chorus:**

The night is the darkest before the dawn  
The storm is the strongest before the sun  
This is not over yet; hope isn't gone  
I have to carry my cross, and never get lost

### **Verse 2:**

You don't have to follow me  
You yourself create your own destiny  
When you stop and listen you'll hear life's plea  
Then be your own drummer, write your melody

### **Chorus:**

The night is the darkest before the dawn  
The storm is the strongest before the sun  
This is not over yet; hope isn't gone  
I have to carry my cross, and never get lost

### **Bridge:**

I have to fulfill my fate  
Even if it only brings me pain  
I can no longer procrastinate or wait  
The Sun and Moon will show me the right way

**Chorus:**

The night is the darkest before the dawn

The storm is the strongest before the sun

This is not over yet; hope isn't gone

I have to carry my cross, and never get lost
