

Anastasija - Fly

Verse 1:

I am down

Pressed to the ground

My wings are broken

Too many words are unspoken

The pain lives inside

But I always try to hide

But for how long will it last?

I have to leave it in the past

Chorus:

And then I will flyyyyy

Very high

Very far

I'll leave my past behind

I will flyyyyy

Into the sky

I'll feel the breeze

I'll see the tops of the trees

Verse 2:

I need to heal

So I could feel life for real

So my scars could disappear

And I'd become as strong as a bear

Chorus:

And then I will flyyyyy

Very high

Very far

I'll leave my past behind

I will flyyyyy

Into the sky

I'll feel the breeze

I'll see the tops of the trees

Bridge:

I sense my freedom within every cell

I can destroy my old shell

My wings are stronger than ever before

I could never ask for anything more

For anything more (3x)

Chorus:

And then I will flyyyyy

Very high

Very far

I'll leave my past behind

Bridge:

I sense my freedom within every cell

I can destroy my old shell

My wings are stronger than ever before

I could never ask for anything more

For anything more (3x)
