

Anastasija - Naïve

Verse 1

My family and friends tell me every day
That you're not a good man
People tell me that I should go my own way
But I don't think I can

Pre-Chorus

Everybody sees you hanging out with other women
But I know you are just friends
Our love's made from iron so there can't be another
I convince myself again and it never ends

Chorus

And maybe I am naïve but I hang
On every word you say, on every word you say,
And maybe I am naïve but I believe
In everything you do, I believe in you
And maybe I am naïve but I'm still here
I am with you, I am with you
And maybe I am naïve but I'll wait
For you every night, for you every night

Verse 2

I don't believe in rumors, just don't care
I simply wanna be with you
I trust you, darling, even when you're not there
I know you think about me too

Pre-Chorus

Everybody sees you hanging out with other women
But I know you are just friends
Our love's made from iron so there can't be another women
I convince myself again and it never ends

Chorus

And maybe I am naïve but I hang
On every word you say, on every word you say,
And maybe I am naïve but I believe
In everything you do, I believe in you
And maybe I am naïve but I'm still here
I am with you, I am with you
And maybe I am naïve but I'll wait
For you every night, for you every night

Bridge

You are my strength, you are my hope
I won't listen to gossip, I won't listen to them talk
I'll free myself from that chain, I'll cut the rope
My love's like water that will break all the rocks

Chorus

And maybe I am naïve but I hang
On every word you say, on every word you say,
And maybe I am naïve but I believe
In everything you do, I believe in you
And maybe I am naïve but I'm still here
I am with you, I am with you
And maybe I am naïve but I'll wait
For you every night, for you every night
