

# LIKE A DREAM - ANASTASIJA

## VERSE 1:

You worry so much, it's driving me insane  
You've gotta loosen up somehow; I know a place  
Where the lights are always flashing; the silence loud  
Throw away your worries; lose them in the crowd

## PRE-CHORUS:

The sunset takes away our light  
But there's no way we're giving up the night  
Starlight in the place of sun, fifty dance as one  
Is it my imagination?

## CHORUS :

Like a dream, come alive  
Let me sweep you off your feet to the beat of the summer moon  
Time is standing still  
Like we never will make it to tomorrow  
It's like a dream  
It's like a dream

## VERSE 2:

Under the stars, as we are  
We'll never be apart; we've known this from the start  
And if we dance like we've got two left feet  
No one dares to care; we're lost in the beat

## PRE-CHORUS:

The sunset takes away our light  
But there's no way we're giving up the night  
Starlight in the place of sun, fifty dance as one  
Is it my imagination?

## CHORUS :

Like a dream, come alive  
Let me sweep you off your feet to the beat of the summer moon  
Time is standing still

Like we never will make it to tomorrow  
It's like a dream  
It's like a dream, dream, dream  
It's like a dream

**BRIDGE:**

When sunlight breaks free of the furthest reaches of darkness  
We will stand and feel the light across our world  
Reflections in our eyes of what has once been  
We are wild spirits, freed

**CHORUS :**

Like a dream, come alive  
Let me sweep you off your feet to the beat of the summer moon  
Time is standing still  
Like we never will make it to tomorrow

Like a dream, come alive  
Let me sweep you off your feet to the beat of the summer moon  
Time is standing still  
Like we never will make it to tomorrow  
It's like a dream  
It's like a dream  
It's like a dream  
It's like a dream
