

## **TRAVELLER – ANASTASIJA**

### **VERSE 1:**

I don't feel safe here  
I don't feel at home  
I know I belong  
Somewhere else  
It is not my space  
And I always felt this way  
Maybe another universe  
Can become a new place to stay

### **CHORUS:**

My eyes  
Are looking deep in your eyes  
My eyes  
See a different aura which around you arises  
Oh traveller  
Wherever your home is please take me with you  
Oh traveller  
I finally found someone like you

### **VERSE 2:**

You crossed a billion miles  
To visit lady Gaia  
Millions of new stars  
Ignited just to light your path  
And your glowing is so strong  
That I can see it from afar  
This connection between me and you  
Will never leave a new scar

### **CHORUS:**

My eyes  
Are looking deep in your eyes  
My eyes  
See a different aura which around you arises  
Oh traveller  
Wherever your home is please take me with you  
Oh traveller

I finally found someone like you

**BRIDGE:**

Our appearances

May be different

But inside

We are alike

Your inner fire

Makes me stronger

I'm ready to know

What happiness feels like

**CHORUS:**

My eyes

Are looking deep in your eyes

My eyes

See a different aura which around you arises

Oh traveller

Wherever your home is please take me with you

Oh traveller

I finally found someone like you

Oh traveller, oh traveller,

Oh traveller, I finally found someone like you
